SUPERIOR SERVICE ELECTRIC

"Call Us Today and We are On the Way!"

Class Dismissed - Congrats To Local Grads!

We are proud to be a locally owned and operated business dedicated to the electrical repair and installation needs of our friends and family in the surrounding communities. We know that this past year has been difficult for many of our customers and their families - and that includes students completing classes in unique ways.

Thank you for your trust and for allowing us to work in your homes, caring for the space that you share with your friends and family. Congratulations to all of our local graduates!

Father's Day is Sunday, June 21

Unique Father's Day Gifts For Any Dad

Does dad really need another necktie this year? Let's talk about a few options perfect for just about any dad out there!

- **Grillin' Dad** - Help dad upgrade his grilling game with a Bluetooth-connected grill thermometer. Paired with his smartphone, it's the perfect gift for any grillmaster.
- **Techie Dad** - No dad wants to be caught with a battery at 1%. There are many popular brands of mobile battery packs that will help to keep phones or tablets charged up.
- **Relaxin' Dad** - Even the best DIY dads want a break every once and a while. The gift of someone else doing the heavy lifting! We can help dad (and your whole household) to take care of your home's electrical needs this June and all year long!

Summer Is Here!

& We're Here For Your Summer Electrical Needs

You know that we are professional electricians, ready to serve you all year round. Your property may need some specific care during the summer months that we are more than happy to help you with. Common summer electrical needs include the following.

- **Popping Circuits** - When you have too much utilization of a single circuit, it shuts off to ensure the safety of your electrical system, home, and your family. If you have more consistent issues with tripping circuits, simply ignoring the problem will not make it go away. This is a symptom of a larger problem - and only a professional like us should be called in to assess and remedy the situation.
- **Extension Cords Galore** - Whether it is because you're outside more completing yard work or powering extra equipment for outdoor summer fun, make sure your extension cords are in good shape - free of cuts, nicks, and tears. Piled-up and longer runs of electrical cords are a hazard waiting to happen. If you find you need to run a very long run of extension, consider adding some all-weather outdoor outlets with our help.
- **Electrical Inspections For A Safe Summer** - You need to complete regular ongoing care for all of your home's vital systems, including your electrical. If you can't remember the last time you had a safety inspection, it has been too long. Our experts can help you to identify small issues before they become a major problem - and even offer suggestions to help you maximize your system's health and ease of use.

Superior Service Electric is here for all of your electrical system needs. Contact us [online](#) or call us at (205) 433-4022.
