

Is Your Home Ready For The Change In Season?

Old weather folklore says that *"If March comes in like a lion, it will go out like a lamb."*

That's to say that rough start to the month will balance out into a gentle, warm spring as we lead into April.

Whether we end up with a lion or lamb at the end of the month - we have the skills to make sure your home is well-maintained all March long and all year long! We're always here to help our customers with their electrical repair and upgrade needs.

Small Steps For Good Property Maintenance

You don't have to jump right into deep spring cleaning. Consider starting with small, easily achievable goals if that's too much for the moment. Tackling small jobs can really add up over time.

- **Clear The Pantry & Fridge** - No mop and bucket required. Before your next visit to the grocery store, take some time to go through and identify expired or otherwise undesirable products that have taken up residence in your kitchen.
- **Clean Those Screens & Monitors** - Your TV screen can be a magnet for dust and fingerprints. It's something you probably look at every day and mean to fix, but by that time, you're already sitting comfy in your favorite chair! Use an appropriate screen cleaner solution and a clean rag to safely clean smudges and dust from your TV screens and monitors.
- **Plan Out Your Spring Cleaning Schedule**- A little planning goes a long way. Work up a gameplan to address all the parts of your home's cleaning needs, including delegation to family members where appropriate - so that you can enjoy a clean home without doing all of the work yourself. That should include scheduling an electrical safety inspection with us!

Superior Service Electric is here for all of your electrical system needs. Contact us [online](#) or call us at (205) 433-4022.
