Wishing You A Happy Labor Day

How To Get Your Home Fall-Ready

Beyond the cinnamon brooms and decorative gourds, you can take some proactive steps to get your home ready for autumn.

- **Ready Your Home's Heating Systems** - Consider scheduling a tune-up from your local heating and HVAC contractor to check out your heater before you turn it on for the first time. At the very least, make sure you replace your air filters before the change in season.
- **Seal Gaps And Cracks To Avoid Chilly Drafts** - Those spaces around windows and doors can be a major waste of energy. Closing those gaps with weatherstripping and hinge adjustments can help keep you comfortable this fall.
- **Clear Out Gutters And Downspouts** - Make sure your home's gutters are clean to ensure your property is ready for the changing season.
- **An Electrical Safety Inspection To Prepare** - The upcoming cooler months can mean changes in your electricity consumption. Make sure your home is ready with an electrical safety inspection with the help of our pros!

Superior Service Electric is here for all of your electrical system needs. Contact us [online](#) or call us at (205) 433-4022.
