

### Have A Gobble Gobblin' Good Time This November!

This year, we remain thankful for all of the friends, family, and neighbors who have used our services or referred us in 2023. We're proud to keep our community at its best - and we're thankful for the opportunity to serve!

Speaking of serving, remember to get that Turkey Day to-do list finished up sooner rather than later! While we can't help with gluey mashed potatoes or burnt Butterball turkeys, we can certainly help make your property be its best for the holidays - from Christmas into the New Year!

Happy Thanksgiving to you and your family from all of us!

### Last Minute Thanksgiving Tips

Whether you're playing host or just trying to be a helpful guest for a Thanksgiving meal this year, there can be a lot of pressure to get your holiday meal just right. Keep sight of the purpose of Thanksgiving: enjoying the company of friends and loved ones. Take some stress off your holiday with some Thanksgiving simplification.

- **Serve What You Know & What You Love**
  - While candied yams may be the standard Thanksgiving fare, you can still add your family's flare to your holiday meal. Whether it is your go-to comfort food or a meal that's a family favorite, it doesn't have to be a traditional Thanksgiving food -- but it can be *your* Thanksgiving food.
- **Fancy Drinks For All Ages**
  - Mocktails can be fancy drinks that family members of all ages and preferences can enjoy. From hot apple cider drinks to cool cranberry punches, you can let everyone sip a handcrafted beverage for your Thanksgiving toast.
- **Buy Some Backup Gravy, Just In Case**
  - Worried about lumps in your gravy? Making gravy from scratch can be delicious but also tricky to do. If you're worried, you could buy a jar of gravy that you can fancy up with some fresh herbs, just in case your homemade gravy doesn't work out.

### End Of Year Maintenance Made Easy

The year-end rush is on. Make sure your property is at its best this holiday season and into 2024 with these simple home care reminders.

- **Ensure Fireplaces & Heat Sources Are In Good Working Order**
  - If you plan on a festive fire this holiday season, check your fireplace, chimney, and damper for proper operation and cleanliness.
- **Test Your Smoke Detectors**
  - While we don't recommend using your smoke detectors as turkey timers, you still need to make sure your safety equipment is working. Test your smoke detectors and ensure your kitchen fire extinguisher is not expired.
- **Keeping Warm Air In And The Chilly Air Out**
  - Having properly sealed windows and doors will reduce energy loss from drafts - keeping you more comfortable all day long, all winter long.
- **Electrical Safety First When It Comes To Holiday Lights**
  - Before you hang those holiday lights, make sure your outlets and panel can handle all of the festive electrical flow. Our experts can verify your electrical system is ready for your Christmas light display and more!

Superior Service Electric is here for all of your electrical system needs. Contact us [online](#) or call us at (205) 433-4022.
