Home Care Resolutions For The New Year

We can almost hear the countdown and clinking glasses now! While the most popular New Year's resolutions usually have to do with exercising more and eating less carbs, we're fans of making sure you have resolutions to keep your home in order in the new year. It's easy to let the little things pile up and get away from you. Set a few home care goals for 2024.

- **Plot Out Your Home Improvement Intentions**
  - Most of us have a list of things that we want to get done around the house, ranging from minor repairs to big renovations. But if you never schedule it out, it'll never happen. Pick one or two small projects and set a target date for completion now.
- **Commit To Electrical Safety In 2024**
  - Your property's electrical system is the backbone of your home life. Make sure you and your family are safe; prioritize an electrical safety inspection in the new year.
- **Update Your Decor**
  - When was the last time you freshened up the place? It can be as simple as putting up some new photos or as involved as a fresh coat of paint; update your decor in 2024.
